

THE NEXT GENERATION IN LOCKING

The Carbine Acrobat is one of the world’s strongest and most versatile flip bolt mortice locks designed for securing commercial and residential properties. This product is a result of direct industry feedback and years of R&D to be at the Carbine standard of quality and innovative technology where you can be assured of its strength in security.

You can simply choose and select which item you need to make up your configuration from the table below OR to simplify this further we've put together a list of assembly codes to make your sales order simple by ordering the one product code.
